

THE CONTINENCE PROMOTION OUTREACH PROGRAM

(Penrith, Hawkesbury,
Blue Mountains Areas)

The Continence Promotion Outreach Program is a part-time clinical service funded by Home and Community Care (HACC). The Continence Foundation of Australia in NSW brings this service to your home. Incontinence (loss of bowel or bladder control) affects all age groups. Our priority is to assist the frail aged and people with disabilities who have incontinence and their carers. The Continence Foundation of Australia in NSW can assist others with general enquiries and where to seek help.

How can I make an appointment?
