

Thursday 15 June 2023

8:30	Opening and welcome - Board Chair/ CoChair		
8:45	Welcome to country		
	Session 1 New Frontiers		
8:55	Angela Rantell - STATE OF THE ART - Female incontinence, change in practice with lack of mesh	NO SESSION	
9:20	The Pyschology of sexual dysfunction <i>Speaker TBA</i>		
9:35	Paul Hodges - Male continence mechanism - a research update in 2023		
9:50	Howard Goldman: Male incontinence surgery: An update on the 7th International Consultation on Incontinence		
10:10	Tiina Vaittinen - Sustainable continence care		
10:25	Q&A		
10:30	Morning Tea & Exhibition		
	Session 2 Ageing - Considerations In Continence		Session 3 Male LUTS
11:00	Michael Murray - Note to my younger self		11:00 Francisco Martins: Advances in urogenital trauma and reconstruction
11:20	Lewis Chan - The Ageing bladder- implications for clinical practice USANZ Lecture		11:20 Selma van Diest: Chronic male pelvic pain syndrome - a psychologist's perspective
11:40	Amanda Chung: Histological and ultrastructural changes to the lower urinary tract with ageing	11:35 Debate: Surgical treatment for an 80g prostate in a 50 yr old sexually active male INTRO	
11:55	Howard Goldman - STATE OF THE ART - OAB and anticholinergics: Does treating the bladder put the brain at risk	11:40 Mariolyn Raj (Melbourne) Urolift (10 min)	
12:20	Medication management in the older person: polypharmacy drug metabolism and de-prescribing. <i>Speaker TBA</i>	11:50 Reziun <i>Speaker TBA</i>	
		12:00 Aquablation <i>Speaker TBA</i>	
		12:10 Debate findings and vote	
		12:20 Abstract 1 Charlotte Phelps: How does calcium influence urinary bladder contractions?	
	Lunch & Exhibition		
12:30	Session 4 Neurogenic Bladder and Bowel Dysfunction	Session 5 Male Plumbing 101 - New evidence	
13:30	Jaleesh Panicker: STATE OF THE ART Nocturia and Nocturnal Polyuria in Neurological Patients: From Epidemiology to Treatment. A Systematic Review of the Literature	13:30 Francisco Martins: Posterior urethral obstruction: Lower urinary tract reconstruction 101	
13:50	Behavioural treatment/physio for functional bowel symptoms in inflammatory bowel disease. <i>Speaker TBA</i>	13:50 Irmina Nahon: Role of pelvic floor physiotherapist in male pelvic dysfunction	
14:05	Management of constipation <i>Speaker TBA</i>	14:05 Janelle Brennan: Over and underactive bladder: Is BPE the culprit and what can be done	
14:20	Angela Rantell: The role of Botox in neurogenic detrusor overactivity	14:20 Q&A	
14:40	Jaleesh Panicker - Transcutaneous Neuromodulation in the neurogenic patient - is there utility?	14:25 Debate: Surgical treatment for a post-prostatectomy	
		14:30 a. Giovanni Losco Male sling	
		14:45 b. Sophie Plagakis Artificial urinary sphincter	
15:00	Afternoon Tea & Exhibition		
	Session 6 - Male Pelvic Floor and Enlarged Prostate		
15:30	Eric Chung: Minimal invasive prostate surgery: Hype or hope for BPH patients?	NO SESSION	
15:40	Paul Hodges: Male pelvic floor: Diagnostic assessment and pelvic physiotherapy		
15:50	Andrew Fuller : Robotic Surgery for the enlarged prostate		
16:00	The failed bladder and BPH beyond medical or surgical therapy: Role of a nurse <i>Speaker TBA</i>		
16:10	Panel Case discussion		
16:40	Abstract 2 Alanna Barwood: Testing the convergent validity of the Pelvic Pain Psychological Screening Questionnaire (3PSQ): An observational, cross-sectional study.		
16:47	Abstract 3 Giovanni Losco: Suprapubic Catheter Usage - A Simple Catheter Usage - A Simple Procedure, but is it so?		
16:54	Abstract 4 Carol Jones: The development of a perineal specific body perception questionnaire, based on the Fremantle Back Awareness Questionnaire, to measure body perception in individuals with persistent perineal pain.		
5:00	Welcome Reception		

Friday 16 June 2023

Welcome	
Session 7 Female Pelvic Floor & POP	
8:30	Helena Frawley - Pelvic Floor Assessment 101
8:45	<i>Topic TBA</i>
9:00	Angela Rantell - Pessary guidelines and management
9:15	Vincent Tse - Surgical management of prolapse
9:35	Howard Goldman - Complication of prolapse surgery
10:00	Alexandra Mowatt - UGSA LECTURE Options in a meshless era
10:20	Q&A
10:30	Morning Tea & Exhibition
Session 8 Transition - Considerations and Challenges	
11:00	Howard Goldman - Neurophysiology of micturition in the teenager and its clinical implications
11:25	Teenage Spinal Cord injury - the teenager in the wheelchair
11:40	Ashani Couchman - How to decide when to operate?
11:55	Katlyn Dunn Consumer story
12:15	Lessons learned or could have learnt - are we exposed to enough adolescent urology? <i>Speaker TBA</i>
12:30	Lunch & Exhibition
Session 10 - Abstracts - Pelvic Floor Pot Pourri	
1:30	Abstract 7 Kevin Yinkit Zhuo: How to prevent urinary tract infections: what is online video content teaching our patients?
1:37	Abstract 8 Bernadette Dellar: A novel method to assess female voiding. Is transpubic sonography a reliable assessment of functional voiding in asymptomatic females?
1:44	Abstract 9 Susannah Ahern: Clinical practice trends in pelvic floor procedures: survey results from the Australasian Pelvic Floor Procedure Registry
1:51	Abstract 10 Frances Harley: Early Experience of Transabdominal and Novel Transvaginal Robot-Assisted Laparoscopic Removal of Transvaginal Mesh
1:58	Abstract 11 Robyn Brennan: Feasibility of pelvic floor muscle training delivered via telehealth to treat urinary and/or faecal incontinence after gynaecological cancer surgery: a single cohort feasibility study
2:05	Abstract 12 Amelia Mardon: That pain science concepts are important to females with persistent pelvic pain? A reflexive thematic analysis
2:12	Abstract 13 Jodie Dakic: Experience of Playing Sport/Exercising for Women with Pelvic Floor Symptoms: A Qualitative study
2:19	Abstract 14 Robyn Brennan: The natural history of pelvic floor disorders before and after hysterectomy for gynaecological cancer
2:26	Abstract 15 Amelia Mardon: Key pain science education concepts for persistent pelvic pain: an e-Delphi study of expert clinicians
2:33	Abstract 16 Alexandra Emerson: Functional outcomes 12 months post full mesh removal – a retrospective analysis of a single centre
2:40	Abstract 17 Patricia Neumann: Australian health care practitioners providing pessaries for women with pelvic organ prolapse: a survey of practice.
2:47	Abstract 18 Nives Zerafa: Benefits of Co-Design with Consumers to Develop a No-Language Resource on Incontinence
2:54	Abstract 19 Ruth Snider: An Australasian primary care clinical practice pathway for uncomplicated recurrent urinary tract infections in women
Session 9 FUS 'Decision Time !'	
11:00	Sophie Plagakis: Should I Offer Concomitant Botox and SUI Procedures in Women ?
11:15	Ailsa Wilson-Edwards: Drug Refractory OAB - SNM or Botox or Both ?
11:30	Q&A
11:40	Francisco Martins : Female BOO from Urethral Stricture : Surgical Options
11:55	Howard Goldman : Is Urodynamics Indicated Prior to Female and Male Sling Surgery ?
12:10	Q&A
12:20	Abstract 5 Judith Thompson: Evaluating the content validity of the 3PSQ in People with Persistent Pelvic Pain: A mixed method cross-sectional study.
12:27	Abstract 6 Christian Moro: Are muscarinic agonists and acetylcholinesterase inhibitors effective for the treatment of underactive bladder?
Session 11 FUS - Surgical Masterclass (Chair : Vincent Tse and Sophie Plagakis)	
13:30	Howard Goldman : Management of Transvaginal Mesh Erosion into the Urethra STATE OF THE ART LECTURE
13:50	Robotic Sacrocolpopexy - Primary and Re-Do - Robotic Surgery <i>Speaker TBA</i>
14:05	<i>Topic TBA</i>
14:15	Q&A
14:22	Francisco Martins : Managing the Male AUS Cuff Erosion in Radiated Patients - When to Salvage and When to Divert ?
14:37	Ashani Couchman : Mitrofanoff - A Lost Art ? - Surgical Pearls
14:52	Q&A

NO SESSION

3:00	Afternoon Tea & Exhibition
	Session 12 - Pearls of Pain
3:30	Susan Evans: Neuroimmune connections between pelvic visceral organs including the bladder and the central nervous system
3:45	Tonia Mezzini: Pearls of Sexual Pain
4:00	Irina Hollington: Chronic pain specialist approach: insights into prescribing and interventional procedures for pelvic pain
4:15	Sonia Scharfbillig: Pearls of Physiotherapy Management of Pelvic Pain
4:30	Case base discussions: With speakers from session
5:00	CLOSE
Saturday 17 June 2023	
	Session 13 UTI and Gut Microbiome, Antibiotic Stewardship
9:00	Angela Rantell: How can we improve investigation, prevention and treatment for recurrent urinary tract infections – ICI-RS 2018
9:25	Faecal transplant <i>Speaker TBA</i>
9:40	Ashani Couchman: UTI risk in SPI: A Retrospective Review
9:55	Q&A
10:00	Morning Tea & Exhibition
	Session 14 - Radiology/ Oncology
10:30	Francisco Martins: STATE OF THE ART Complex urinary fistulae conditions in males: State of the Art Management
10:55	MRI of the Pelvic Floor <i>Speaker TBA</i>
11:10	Pelvic Floor mesh assessment with ultrasound <i>Speaker TBA</i>
11:25	Kerry Santoro - Cancer Survivorship - Challenges for the oncological nurse
11:40	Q&A
11:45	Closure on NCOI program and announcements of awards
12:00	Lunch
	Session 15 FUS Program - Research Science
13:00	Luke Grundy : Nerves, Channels, Receptors - The Bladder Pain Story
13:20	Oxytocin and Lower Tract Function <i>Speaker TBA</i>
13:35	How does psychological stress influence the micturition pathway and the bladder itself? <i>Speaker TBA</i>
13:50	Systematic Review of Management of Apical Prolapse <i>Speaker TBA</i>
14:05	Q&A
14:15	Lewis Chan: Longitudinal changes in urinary symptoms and continence in ageing men - data from the CHAMP study
14:30	Amanda Chung : Does structure Correlate with Function : A study on the Underactive Detrusor
14:45	Vincent Tse : Long-term Follow-up of Mesh Use in POP Repairs in the Elderly - Outcome Report up to 15 years
14:55	Q&A (5 mins)
15:00	Closing and Adjourn

NO SESSION
